

Every feature, plan by plan.

Every feature in the Business AI Action Hub, plan by plan, in the words owners see in the hub. Each plan includes everything in the plans before it. 79 features across six plans.

THE HUB'S NUMBER

Only ever messages owners: login codes, new-inquiry alerts, the morning digest and owner alerts. Never your customers.

YOUR CUSTOMERS

Below ₹1.5L every message is prepared in your Send list and sent by you with one tap from your own WhatsApp. From ₹1.5L it can go from your own connected number.

MONEY WAITS FOR YOU

Payment reminders and quotations always wait for a person. Only LegacyWorkforce staff may act on their own — never with money or links.

AI TOOLS, THEN AI STAFF

Below ₹1.5L the hub gives you **AI tools**: you press a button, it writes, you send. From Growth Mentorship you get **AI staff** who work on their own accounts — your WhatsApp number, your Employz.ai CRM, a voice agent — around the clock, within the rules on the cover.

YOUR WEBSITE

Every plan: a website at **yourname.employz.ai** with an inquiry form and a Chat on WhatsApp button. From Growth Mentorship: your own domain with a multi-page website, connected for you.

AN AI RUN

One piece of AI work: a week of posts, a reply, a quotation draft, a role-play turn. Runs refill on the 1st. A failed run is refunded.

THE ADMIN DECIDES

Every feature can be moved to another plan, renamed or switched off from the admin panel. This list is printed from the hub's defaults; the Plans & billing page always shows the current version.
